

EARTHlite
World's #1 Brand in Massage™

Introducing the exciting, new Earthlite Vortex Massage Chair.

In a Vortex, where the magnetic fields converge, there is a powerful energy that many believe has healing qualities. A professional massage therapist uses the massage chair to focus and channel healing energy from his or her hands to the client. That's why Earthlite has named our new chair, "Vortex" – a place of energy and healing.

This Vortex encapsulates our 15 years of learning in the design and manufacture of massage chairs...

-  **Lightest Design** – Our oval tube, aircraft aluminum frame design yields a super light, super strong 15 lb professional massage chair.
-  **Simple and Easy to Use** – Functional design folds and totes easily.
-  **Most Comfortable** – The feel of our Pro-Lite two layer support system and our plush, Natursoft™ Vinyl is heavenly.
-  **Highest Quality** – Made in the USA
-  **Best Value – Only \$299** for a super lightweight aircraft aluminum massage chair. You can't beat that!
